

Aj Ty v IT, founded in 2012, began as an initiative to address the underrepresentation of female students in ICT programmes—and consequently, the number of women working in the tech sector—was critically low. Recognizing this gender gap, we set out to create an inclusive environment that fosters the development of digital and ICT skills for women and girls.

#technologyhasnogender

## Our Mission

We **provide** digital and ICT education for girls in primary and secondary schools, women and teachers

We **challenge** and break stereotypes about women in technologies

We **build** an inclusive community for tech women, welcoming open-minded men

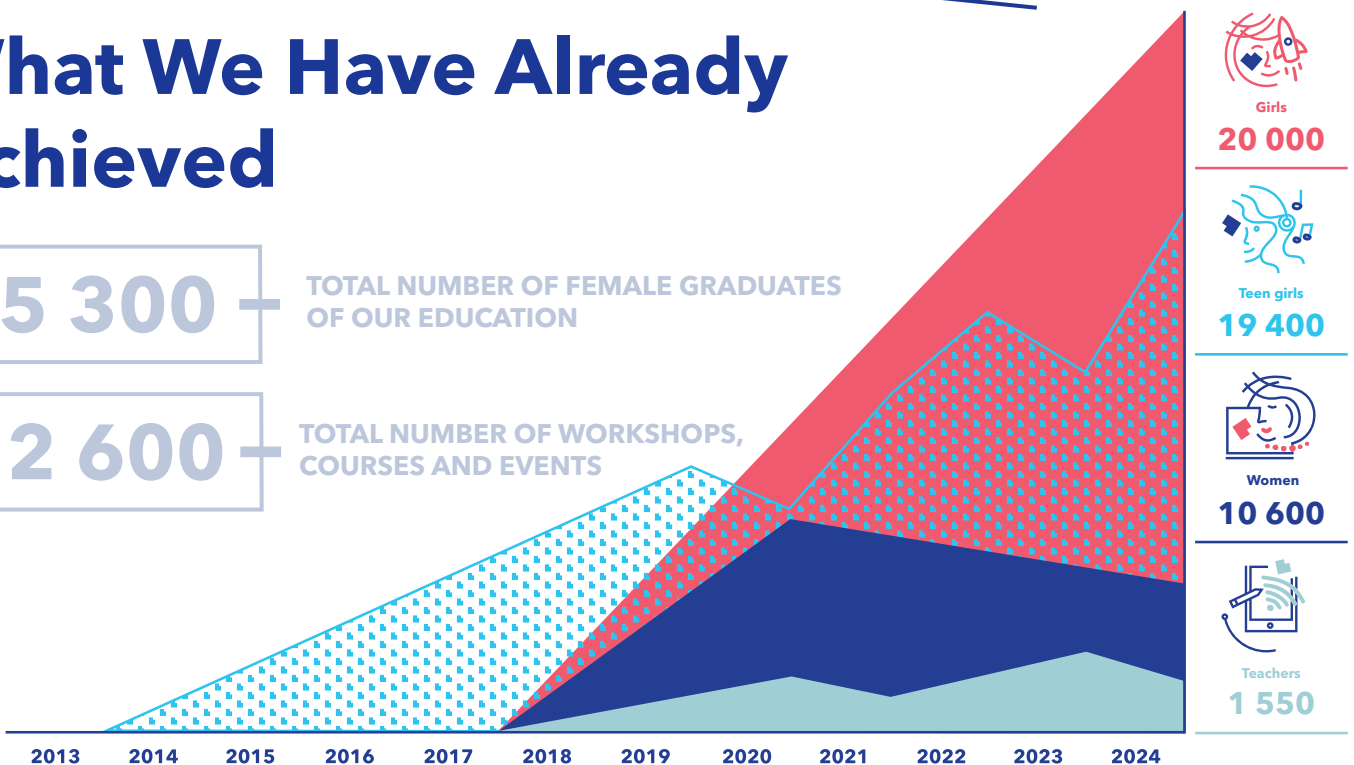

## What We Have Already Achieved

55 300

TOTAL NUMBER OF FEMALE GRADUATES OF OUR EDUCATION

2 600

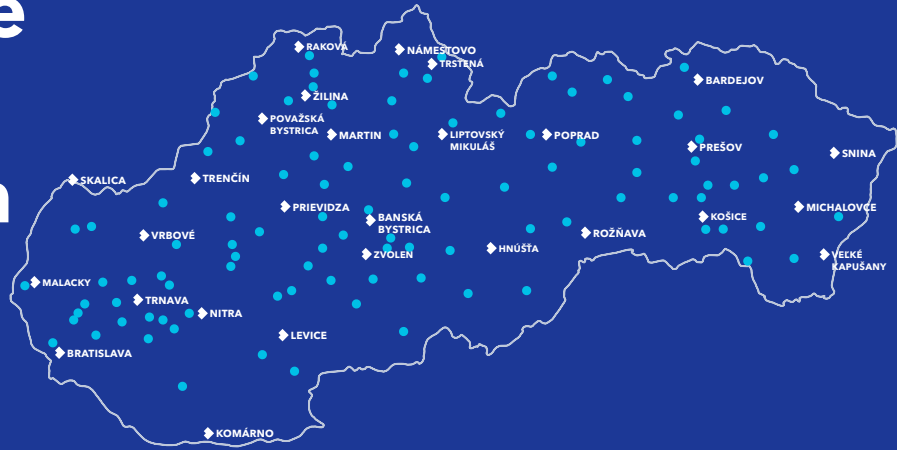

TOTAL NUMBER OF WORKSHOPS, COURSES AND EVENTS

## Our Vision

Technology shapes the future, and we believe women should play an integral role in it. Our goal is to empower girls and women to expand their digital skills, pursue careers in IT, and enter the tech industry without barriers.

# Where We Provide Education

## OUR AWARDS AND RECOGNITIONS

## We Also Offer

A multi-genre conference designed to inspire, empower, and elevate the visibility of Slovak women in technologies. This event provides a platform for women to showcase their achievements, share insights, and encourage others to consider careers in tech.

An annual awards program celebrating women's contributions to ICT and recognizing advocates for diversity in tech. Awards include Woman in IT, Ally of the Year, and IT Student of the Year, honoring those who champion the inclusion of women in Slovakia's tech sector and inspire future leaders.
